[Chemistry in America 1876-1976 | SpringerLink](#)

This study is an outgrowth of our interest in the history of modern chemistry. The paucity of reliable, quantitative knowledge about past science was brought home forcibly to us when we undertook a research seminar in the comparative history of modern chemistry in Britain, Germany, and the United States. That seminar, which took place at the University of Pennsylvania in the spring of 1975, was paralleled by one devoted to the work of the "Annales School". The two seminars together catalyzed CHEMISTRY IN AMERICA, 1876-1976 - rd.springer.com

CHEMISTRY IN AMERICA, 1876-1976 . CHEMISTS AND CHEMISTRY A series of books devoted to the examination of the history and development of chemistry from its early emergence as a separate discipline to the present day. The series will describe the personalities, processes, theoretical and technical advances which have shaped our current understanding of chemical science. ARNOLD THACKRA Y. JEFFREY

Clinical Chemistry Since 1800: Growth and Development ...

Animal Chemistry and Vitalism. Antoine Fran ois de Foureroy (1755-1809) , a chemist and nonpracticing physician who was interested in the application of chemistry to medicine, devised what probably was the first plan for establishing clinical laboratories in hospitals.

Timeline of chemistry - Wikipedia

The timeline of chemistry lists important works, discoveries, ideas, inventions, and experiments that significantly changed humanity's understanding of the modern science known as chemistry, defined as the scientific study of the composition of matter and of its interactions.

Chemistry Timeline - Learner

4000 BCE-3000 BCE Age of Copper Metallurgy

Metallurgy is chemistry's oldest ancestor, dating back to the Bronze Age, the period when humans learned to smelt copper and tin from natural ores (rocks containing these metals, along with many other materials).
