Developmental Politics in Transition: The Neoliberal Era ...

In many parts of the world, neoliberalism has not replaced but interacted with national developmentalism in complex and diverse ways. With new constituencies of developmentalism emerging across the globe and with classic developmental political economies restructuring beyond national boundaries, the

Development Politics | Encyclopedia.com

DEVELOPMENT POLITICSDEVELOPMENT

POLITICS The politics of development, or development politics, has always been at the core of modern economic activity, despite claims to the contrary. In India, a developing and democratic country, one can never fully understand the process of economic development, or of liberalization, without deciphering the

Development theory | economics and political science ...

Development theory, cluster of research and theories on economic and political development. The use of the term development to refer to national economic growth emerged in the United States beginning in the 1940s and in association with a key American foreign policy concern: how to shape the future.

Political Development: Conceptual Explanation

ADVERTISEMENTS: Political development is a more elusive concept than economic development. It is more controversial in normative terms and more difficult to measure in empirical and operational terms. It is used frequently by both normative and non-normative or existential thinkers. Normative theorists stress that a political system develops.

Sustainable = development=20 triangle - schools.ednet.ns.ca

Developmental state - Wikipedia

Developmental state, or hard state, is a term used by international political economy scholars to refer to the phenomenon of state-led macroeconomic planning in East Asia in the late 20th century. In this model of capitalism (sometimes referred to as state development capitalism), the state has more independent, or autonomous, political power, as well as more control over the economy.

Development theory - Wikipedia

Human development theory is a theory which uses ideas from different origins, such as ecology, sustainable development, feminism and welfare economics. It wants to avoid normative politics and is focused on how social capital and instructional capital can be deployed to optimize the overall value of human capital in an economy.
