ecology of the extremely halophilic archaea | FEMS ...

However, our understanding of the ecology of the halophilic archaea lags far behind the progress made in the study of other aspects of their biology. A few hypersaline environments, such as the Dead Sea and solar salterns, have been studied more in depth, using techniques such as lipid analysis to obtain information on the types of organisms present and measurement of uptake of labeled

About Halophiles Halophiles 2019

The halophilic archaea Haloferax was among one of the

first organisms to reveal the CRISPR-Cas system that is an exciting example of heredity of acquired characteristics in biology and is presently envisaged to be used in gene therapies. Not only the halophiles are of applicative interest but they are also intensively scrutinized as possible models of early forms of life and as inhabitants of
