First, set up your book's page template in InDesign by creating a new document. The page size, columns and margins will depend on your preference, but remember to add an extra 10mm to the inside margin (to accommodate the stitching) and a 3mm bleed if you intend to print to the edge of the page.

[How to Bind a Book: 10 Steps \(with Pictures\)](#)

This hides the actual binding ("head") strips as well as the gap in the bookcloth. Plus, it's a great way to use papers that are a little too busy for the cover but you still love. (Traditionally, marbled papers were used for the endpapers, but I like a sort of "natural" coloured cardstock with specks of colour).

[4 Ways to Bind a Book - wikiHow](#)

Bind the top cover like you would bind any regular sheet. Loop around and under the previous stitch, and then thread the needle back inside and open the book. Tie a knot by looping the thread under the previous page's stitch.
