## Mediterranean Ecosystem - Santa Monica Mountains National ...

The Mediterranean ecosystem occurs only in five relatively small areas around the planet: the area bordering

the Mediterranean Sea, central Chile, the Cape region of South Africa, southwestern and southern Australia, and, of course, southern California and northern Baja California.

#### **Mediterranean-type Ecosystems - Home - Springer**

The regions of the world which experience a mediterranean type climate, with a cool wet season alternating with a hot dry summer, contain some of the world's most attractive landscapes. In the Old World, the mediterranean landscapes became the cradle of civilization; other mediterranean areas of the world have attracted considerable populations for many centuries. These large human populations

#### **Mediterranean race - Wikipedia**

The Mediterranean race (also Mediterranid race) is one of the multiple sub-races into which the Caucasian race was categorised by most anthropologists in the late 19th to mid-20th centuries. According to various definitions, it was said to be prevalent in the Mediterranean Basin and areas near the Mediterranean, especially in Southern Europe.

#### **Mediterranean Climate Type - Google Sites**

Mediterranean climate is a fairly dry climate. Almost no rain falls during the summer, so most of the rain falls during the cooler winter. The summer experiences cold ocean currents that bring dry air and no precipitation.

#### **Mediterranean Sea - Wikipedia**

The Mediterranean Sea is a sea connected to the Atlantic Ocean, surrounded by the Mediterranean Basin and almost completely enclosed by land: on the north by Southern Europe and Anatolia, on the south by North Africa and on the east by the Levant.

#### **Seasonal carbon storage and growth in Mediterranean tree ...**

Abstract. In all Mediterranean-type ecosystems, evergreen and deciduous trees differing in wood anatomy, growth pattern and leaf habit coexist, suggesting distinct adaptative responses to environmental constraints.
