A nursing care plan is a part of the nursing process which outlines the plan of action that will be implemented during a patient's medical care. LPNs (Licensed Practical Nurses) and Registered Nurses (RNs) often complete a care plan after a detailed assessment has been performed on the patient's current medical condition and prior medical history.

What Is A Nursing Care Plan and Why is it Needed?

The goal as established in a nursing care plan in terms of observable client responses is what the nurse hopes to achieve by implementing nursing orders. It is a desired outcome or change in the client's condition. The terms goal and outcome are often used interchangeably, but in some nursing literature, a goal is thought of as a more general statement while the outcome is more
