[Proceedings of the Symposium of the International Society ...](#)

This book comprises the proceedings of the first meeting of the International Society for Corneal Research, held in Kyoto on May 12 and 13, 1978, on the occasion of the International Congress of Ophthalmology. The Society was founded by Dr. Stuart L. Brown (USA), who has to be congratulated very sincerely for this idea. The cornea, window of the eye, becomes, indeed, more and more important and its diseases more and more frequent.

Consequently, cornea research is of the greatest necessity. [Proceedings of the Symposium of the International Society ...](#)
