Round vs Rectangular Ductwork: What's the Difference?

In truth, the choice in round or rectangular ductwork isn't entirely up to you (it's up to your HVAC expert.) But, it all depends on how much space you have, if you have exposed ducts, if you have a high or low-velocity HVAC system, and more.

Square to Round Calculator - houseofcraig.net

Height: remember to add if bending the lower scrape in or out Upper Diameter: round use a slightly smaller diameter for less crimping or to finish the top with an added round collar Lower: wide x deep Lower scrape: Add for left seam: Add for right seam: Zoom: 1 of 2 identical pieces, like a clam shell.

What are the advantages of a round duct over a rectangular ...

The round duct has a cross-sectional area 254.5 sqin and a perimeter of 4.7 ft, while the rectangular duct has 286 sqin area and a perimeter of 6.2 ft. The rectangular duct has 32% more metal in it, and should cost proportionately more.
