In the cognition modeling process, input stimulation, the observation result

Cognitive turn and social turn approaches in cognitive ...

The cognitive turn opened the so-called "black box" of the subject, reasoning, feeling and so on. Scholars left the "reliable terrain" of directly observable attributes of behavior and gave birth to theories which aim to both describe and explain the invisible internal psychic processes. One subjectively important milestone is the work by Miller, Galanter and Pribram: The individual is an

Cognition - Wikipedia
Cognition is "the mental action or process of acquiring

knowledge and understanding through thought, experience, and the senses". It encompasses many aspects of intellectual functions and processes such as attention, the formation of knowledge, memory and working memory, judgment and evaluation, reasoning and "computation", problem solving and
