Mixed Species Silviculture - CTAHR Website

Mixed Species Silviculture Do mixed species forests work? If objective is to increase timber crop yield, then in general yes Many field trials have demonstrated 10% increase in yield in mixed species stands over monocultures However, there are certainly exceptions Depends strongly on the ecology of the individual species, and their ecological interactions - Jose et al

IUFRO: 1.09.00 - Ecology and silviculture of mixed forests ...

About Unit The Research Group on ecology and silviculture of mixed forests will be a multidisciplinary team of researchers spanning from forestry, ecology and social sciences aimed (1) to disentangle the mechanisms behind the dynamics of mixed forests, (2) to respond to the Social needs from forests, i.e. increasing demand of multiple ecosystem

Mixed-Species Forests - Ecology and Management | Hans ...

From 1996 to 2003 he worked as lecturer and senior lecturer in silviculture and tree physiology at the Australian National University, where dynamics of mixed-species plantations and native forests were a focus of his research. In 2003, he took up the Chair of Silviculture at Freiburg University, where he developed a research program on structure and dynamics of forests, carbon and nutrient

Sustainable Forestry: Ecology and Silviculture for ...

Ecology and Silviculture for Sustainable Forestry In the following we discuss principles of forest ecology and silvicultural practices relevant for creating and maintaining resilient forests and specific recommendations in relation to uncertainties for sustainable forestry (Senseng et al., 2013).
