### [What is Labour Market? Definition of Labour Market, Labour ...](#)

**Definition:** A labour market is the place where workers and employees interact with each other. In the labour market, employers compete to hire the best, and the workers compete for the best satisfying job. **Description:** A labour market in an economy functions with demand and supply of labour. In this market, labour demand is the firm's demand for labour and supply is the worker's supply of labour.

This approach informs Andrew Gamble's *The Free Economy and the Strong State* (Palgrave Macmillan, 1988), and Colin Hay's *The Political Economy of New Labour* (Manchester University Press, 1999). It also informs much work published in *New Political Economy*, an international journal founded by Sheffield University scholars in 1996.

## EU477 Labour Markets and the Political Economy of

...

To do so, it combines a Labour Economics perspective on imperfect labour markets with a Political Economy perspective on EU institutions and policies. In the lectures, we address analytically policy-making questions on topics such as minimum wages, unions and collective bargaining, unemployment benefits, employment protection legislation, regulation of working hours, migration, and others.

### Labour Market | The Canadian Encyclopedia

The concept of a labour market must be considered a complex and imperfect tool for analysing the system by which the total supply of Canadian labour, including employers, managers and the self-employed, is allocated among the total of employment opportunities in the economy.
