Thought comes first, while language is an expression. There are certain limitations among language, and humans cannot express all that they think. There are certain limitations among language, and humans cannot express all that they think.

Language and Thought | Philosophy Talk

John and Ken begin by asking which comes first—language or thought? For a long time it seemed like thought obviously came first, but more recent philosophy suggests that language molds our thought more than previously considered.

Thought and Language by Lev S. Vygotsky -

Goodreads

Thought and Language (Revised) the first few opening chapters are concerned with the problem of analyzing the relationship between both thought and speech. If we assume that what Vygotsky is looking at, in simple terms is the Meaning of word or the Word Meaning , we can deduce that he is primarily interested in the study of semantics.

Language and Thought | Linguistic Society of America
by Bernard Comrie. No one would disagree with the claim that language and thought interact in many significant ways. There is great disagreement, however, about the proposition that each specific language has its own influence on the thought and action of its speakers.

Chapter 08 - Language & Thought | CourseNotes
Language: Turning Thoughts into Words
Language Consists of Symbols that Convey Meaning, Rules for Combining those Symbols that can generate Messages, Language is Symbolic, Generative, and Structured.
